40. Viruses help the body to live and grow. **True** **False**

41. Where do viruses live?

M: 2. Read the passage and answer the questions. (3 ps)

There are animals living all around us. We can see animals in different places. We see animals in parks and in our homes. Another place to see many animals is at a zoo. Zoos have zookeepers to take care of the animals which live there. Zookeepers work hard to keep animals happy and healthy. Healthy animals can live for a very long time.

One group of the same kind of animals can die out if people hunt too many of those animals. Normally before this happens, we put those animals on a special list. The name of this list is the "endangered **species** list". This list helps people know the need to protect the animals and care for things in nature. Animals are endangered when there are few of a species **left** in the world. (**species**= گونه) (**left**= مانده)

42. We can see animals everywhere. **True** **False**

43. There are not many animals in the zoos. **True** **False**

44. Zookeepers hunt animals. **True** **False**

45. If people hunt too many of animals, they will increase. **True** **False**

46. Which animals can live longer?

47. When are animals endangered?

Good Luck

Ghahramani
